## COMMENTS FROM THE TOWN MANAGER'S OFFICE

Trying to find a plugged sewer line this week has again proven the need for more adequate plans of the existing sewer system. In talking with one of the property owners and on the basis of information from him it was found that the town appropriated money in 1923 to construct a sewer for three houses on Park St. There is no plan on file to show where the sewer was laid, as a result it took three men a full day to find the line and get it in working condition.

A lot of the sewer lines were laid prior to 1900. Some of the plans have been lost, others have not been kept up to date as new connections have been added.

It appears that it would be a practical thing to employ an engineer in the not too distant future to draft new plans and bring the sewer records up to date. The time and money invested would be well returned in time saved in locating sewer mains.

Another weakness of the sewer system is lack of adequate manholes. Even though information is available as to the location of sewers, when one becomes plugged it is necessary to dig from three to five feet and break a hole through the tile so that a sewer rod may be inserted. During the season when the ground is frozen the expense of opening sewers is considerably increased.

Attention has been called to the surface drain on Spring Street which does not properly take care of the surface water at this time of year. Present plans are to rebuild two catch basins and lay new connecting pipe.

Sincerely,  
Harold L. Bean

Prescott Bush (Conn.)

Den 4, April 7: We met with our Den Mother, Mrs. Hastings, at 3:15 P. M. After a brief we gave the Pledge of Allegiance to the Flag and then Mrs. Hastings took us over to Mr. Thompson's to inspect the cows and the barn. The man that takes care of the cattle was very courteous to us, and answered all our questions, and you can well imagine there were plenty of them. The cows were in stalls on each side of the barn, so we could walk in the middle and see them all. We watched the cows being milked and then the man filled a dish with milk for the cats. One cow gave so much milk the man had to get another pail to put it in. The cow came with its back teeth. One cow laid down, I guess she was tired. The man said the way the cows were named, was by taking the first letter from the mother's name and making a name from that. For example, Mother's name, Blanch, take the B-and this could be it, Blackie. The bulls were big and kind of cross looking. You never want to put your hands on the bars around the bull's pen, he might charge and crush or gore your hand with his horns. Many thanks to Mr. Thompson for letting us visit. It was very interesting. Mrs. Hastings took us home. -Keeper of the Buckskin, Paul Sawyer.

Den 5, Cub Scouts, met Tuesday at the home of Den Mother, Mrs. Harold Rolfe. The meeting opened with the salute to the flag. We worked on the planters we are making. Everyone enjoyed a treasure hunt with the clues in our Scout code. Refreshments were furnished by Philippe Rolfe. Refreshments will be furnished next week by Jimmy Young. Our new denner is Bobby Hering. Rodney Hancock, Keeper of the Buckskin.

The second grade Brownies met at the Primary school Tuesday with all members present. We listened to a record of bird songs loaned to us through the kindness of Mrs. Ruth Ains. Cookies were served by Marie Scapre and Cindy Brooks.

Both divisions of Brownies Troop 8 met Tuesday with their leaders. After the business meeting we worked on our bird books. I acted new officers, played games and enjoyed refreshments. Mothers for next week will be Betty Fuller, Judy Clark, Gretchen Dora and Rita Morin.

The 3rd grade pupils enjoyed a trip to the sap camp of Ellis Davis with their teacher, Olive Davis, on Wednesday forenoon, April 1st. Mr. Davis told them how the Indians first discovered maple syrup, showed them how to tap a tree and answered the questions that they prepared, as things they wanted to know.

After they had gone with him to gather a turn of sap, they enjoyed "Sheepskins" on the snow which had been prepared by their teacher in the morning before going to school.

As they returned to the farm house they wanted to see the cows so a trip was made into the barn where they looked at the other cattle.

After returning to the school room pictures were made showing what they had experienced and seen on their trip. A board border of a sap orchard was prepared by some while others made pictures of the different activities in the process of making syrup.

The Brownie Scouts of Bryant Pond with their leaders, Mrs. Gertrude Gaudier, Mrs. Gertrude Andrews, Mrs. Berryman, and Mrs. Verna Swan visited at the sap camp of Ellis Davis on Wednesday afternoon, where they witnessed the boiling and removing of the sap from the pines.
